

“Bringing Art Back to LIFE”

Photographs Digital Restoration from Mold

1. Photographs after removal from the frames.
2. Photographs after initial cleaning.
3. Photographs after scanning and digital restoration.

These items came from a black water sewer back-up. They had been exposed to moisture for several weeks and mold growth was heavy. They were a bio-hazard and had to be handled with full personal protective equipment.

The photos were scanned, photographed and digitally remastered then printed on emulsion based photographic paper.

RC Photos Stuck together

Damage: Photos were stuck together in a “block” from getting wet and emulsion fronts were melded to the plastic back of facing paper. There was a stack of 8 photos. The clients lost so much in this fire. These were the only surviving images from the house of their son and his art studio. We were so thankful to be able to help them recover these precious items.

Photo Restoration

RC Photo Restorations From Fire and Water Damage-Private Client

Damage: Soot, Water and Surface damage to photo. Photos were stuck together and emulsion fronts were melded to the plastic back of facing paper.

News Article Repaired from Mold-Digital Restoration

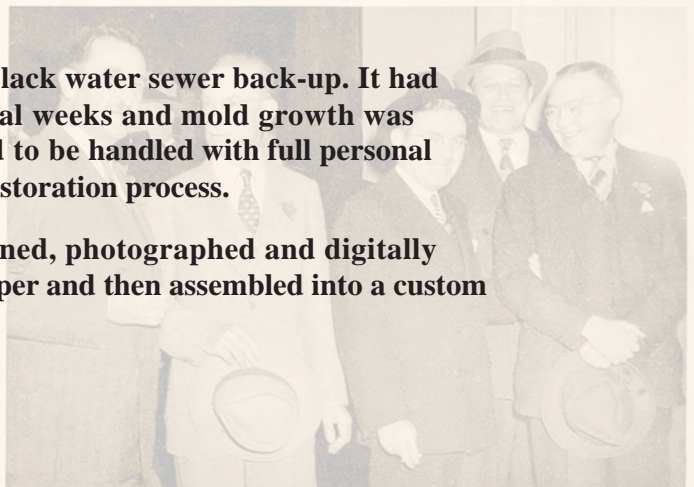

Before

In the Sheriff's office after the decision. From left, Sheriff James Fitzsimmons, Coghlan, Pulitzer and Fitzpatrick. Coghlan and Fitzpatrick were the Sheriff's prisoners while the application for a habeas corpus was pending. (Post-Dispatch photo.)

After

editorial page, who was sentenced to 10 days in jail and fined \$200, and Daniel R. Brady, who was sentenced to 10 days in jail and fined \$100, and for a writ of certiorari to review published March 5 and 6 after Nick had been acquitted on a verdict directed by James Rowe, and the case against Brady was dismissed at the suggestion of the judge.

This News Article came from a black water sewer back-up. It had been exposed to moisture for several weeks and mold growth was heavy. It was a bio-hazard and had to be handled with full personal protective equipment through the restoration process.

The article was cleaned and scanned, photographed and digitally remastered then printed on rag paper and then assembled into a custom period reproduction frame.
